## FACULTY COMMITTEES 1971-72

Have you ever wondered who you should see when you have a compliment or a gripe? Well, here's a list to help you cut thru a little red tape if you want to see someone about practically anything here at Rose. This list is presented courtesy of Dean Matthews:

### COMMISSIONS AND SPECIAL COMMITTEES

**Commission on Quality of Education**  
J. B. Matthews, Chairman; R. D. Hill, S. C. Hite, T. Ishihara, J. R. Lucas, D. Oexmann, P. F. Parshall, C. C. Rogers, A. T. Roper, T. Sakano, A. R. Schmidt, P. D. Smith and R. Stalcup.

**Commission on Campus Planning**  
R. T. Willets, Chairman; I. P. Hooper, J. B. Matthews, H. A. Moench, N. E. Moore, D. Oexmann, J. W. Porter, R. G. Reeves, and R. M. Ross.

**Steering Committee**  
J. B. Matthews, H. A. Moench, R. G. Reeves, R. M. Ross, and R. T. Willets.

**Committee On Administration**  
R. T. Willets, P. E. Giffel, W. K. Harris, J. B. Matthews, D. C. Murdoch, R. G. Reeves, R. M. Ross and W. W. Sisson.

**Admissions and Standing**  
A. G. Blake, Chairman; L. W. Harnening, Secretary; J. R. Lucas, D. F. Oexmann, C. C. Rogers, T. Sakano and R. Steinhauer.

**Discipline**  
R. D. Hill, Chairman; P. H. Adams, B. Benjaminov, A. G. Blake, R. M. Ross, H. A. Sabbagh, W. W. Sisson and R. J. Steinborn.

**Curriculum**  
J. R. Matthews, Chairman; R. M. Arthur, H. R. Bailey, F. A. Guthrie, C. Dyer, S. C. Hite, C. T. Lobo, M. J. Moloney, A. T. Roper, P. D. Smith and R. J. Steinborn.

**Student Organizations**  
J. R. Lucas, Chairman; T. G. Duckworth, Jr.; W. K. Harris, C. G. Howard, R. G. Reeves, R. M. Ross, H. J. Winton and J. T. Ying.

**Tuition Grants and Loans**  
R. M. Ross, Chairman; Mrs. Barbara Butts, Secretary; C. G. Howard, H. A. Moench, D. C. Murdoch, P. F. Parshall, A. R. Schmidt and H. J. Winton.

**Rules**  
A. R. Schmidt, Chairman; B. R. Danner, D. C. Hane, L. W. Harnening, J. R. Lucas, P. H. F. Priest and W. W. Sisson.

**Graduate Council**  
N. E. Moore, Chairman; D. C. Berry, R. C. Coddington, D. C. Hane, R. D. Hill, C. T. Lobo, J. W. Rhee and H. A. Sabbagh.

**Athletics and Recreation**  
H. R. Bailey, Chairman; G. Baca, J. H. Carr, G. K. Haist, J. T. Mutchner, R. M. Ross, H. A. Sabbagh and R. Steinhauer.

**Engineering Mechanics**  
R. C. Coddington, Chairman; R. M. Arthur, B. R. Danner, E. H. Eckerman, T. Ishihara, J. J. Lew, C. T. Lobo, R. D. Robinson and D. J. Hofsommer.

**Graphics and Computer Programming**  
H. A. Moench, Chairman; E. H. Eckerman, R. G. Sanders and D. E. Criss.

**Campus Center**  
I. P. Hooper, Chairman; T. G. Duckworth, Jr.; P. E. Giffel, P. F. Parshall, R. M. Ross and T. Sakano.

**Computing Center**  
W. W. Meeks, Chairman; W. W. Bowden, R. C. Coddington, D. E. Criss, J. H. Derry and T. F. Krile.

## REORGANIZATION?!

OPINION: by Bill Strahle

The Administration might junk the traditional concept of departments and undertake massive reorganization according to a master plan of specific divisions. There are to be five divisions in all—each with a separate division head. Under the division heads will be those professors in charge

of the separate curriculums. The predicted divisions and the respective division heads are as follows: I. Bio-Chem.-Chem E., Hite, S.C. II. Civil-Mechanical-Aero, Roper, A.T. III. Phys.-EE. IV. Math., Bailey, H.R. V. Hum., Dyer, C.

The reasons for this reorganization are fourfold, namely:

- 1.) Eliminates or reduces bickering between department heads;
- 2.) Eliminates the excessive number of 2 and 3-man departments;
- 3.) Should cut down on the 15 per cent of the staff that is ad-

ministrative in nature; 4.) EC&D wanted the changes made.

The predicted deadline is before November. This is due in large part to the necessity of projecting the Rose budget for the year 1971-72.

## THE UNITED STATES FOREIGN POLICY

### THE PEOPLES REPUBLIC OF CHINA

President Nixon has said that there is no more important challenge in this decade than that of drawing the People's Republic of China into a meaningful relationship with the world community. The determination of Mr. Nixon's administration to find ways of reducing tensions between the United States and the People's Republic of China has led to a series of actions undertaken in the past two years. These actions have resulted in:

- the elimination of restrictions on the use of U.S. passports for travel to China;
- the dropping of a 21-year embargo on nonstrategic trade from the People's Republic of China;
- the authorization of exports from the U.S. on many items;
- the relaxing of currency controls governing relations with the P.R.C.

It has also been announced that the United States is prepared to exchange unclassified scientific and technical information on the widest possible basis with the P.R.C.

On July 15, President Nixon announced that he had accepted an invitation from Premier Chou-En-lai to visit China before May, 1972. While considered a political move by many critics, this announcement seems to show to even a greater extent the changing attitudes of both the U.S. and the P.R.C.

Since it has become clear that no international order can become effective if one of the world's largest powers remains outside it, and hostile toward it, the effect of these actions grows increasingly more important in today's world politics.

### Library

F. A. Guthrie, Chairman; W. W. Bowden, D. C. Chiang, H. Cole, J. H. Derry, J. M. Kortright and J. W. Porter.

### Fringe Benefits

W. W. Bowden, Chairman; P. H. Adams, G. Baca, H. Cole, T. Ishihara, O. M. Knudsen, J. W. Rhee and A. V. Smith.

### Promotion and Tenure

J. B. Matthews, Chairman; S. C. Hite, I. P. Hooper, O. M. Knudsen, W. W. Meeks and A. R. Schmidt.

\*Elected by Faculty.

### \*Dean's Advisory Council

B. R. Danner, R. D. Hill, W. W. Meeks, N. E. Moore, A. T. Roper and J. T. Ying.

\*Elected by Faculty.

### Parking Committee

R. M. Ross, Chairman; W. W. Meeks and R. T. Willets.

### Public Relation Committee

R. G. Reeves and W. K. Harris.

## STUDENT ACTIVITIES BOARD MEETING

SEPTEMBER 30, 1971

Mark Murnan presented the Student Activities Calendar. All events that have been finalized should be put on the calendar; it also includes events at ISU and St. Mary's. The calendar will be kept in the Student Government office.

It was mentioned that the Student Activities Board does not officially exist according to the S.G.A. Constitution. A rough description of the Board was presented with the idea of putting it into either the Constitution or the By-Laws of the S.G.A. John Metz, Jay Sensibaugh, and Mark Murnan will work on finalizing the description.

Information was presented on the National Entertainment Conference. It is a group of educators who help and teach others to put on programs and activities. It offers newsletters, information and plans to hold a convention February 13-16. It was agreed that the Student Activities Board should join the N.E.C. and send a few people to the convention.

Honors Convoy was then discussed by Rick Engelman. It will be similar to what it has been in the past.

Many ideas for convos were then discussed; among which having a Playboy Bunny, Howard Kosell, the ISU Jazz Band, a brass ensemble from the Indianapolis Symphony, and a discussion between two opposing sides on the topic of pollution. Jay Sensibaugh was asked to check into the possibility of having the candidates for

## MORAL OBLIGATIONS OF THE ENGINEER DURING WAR

Napalm, bombs, rockets. All are products of our mechanized society. All kill. All are the child of the engineer. They are his Cain. One may argue, "We only make them, we don't use them." But is there any difference between designing a weapon and using it? From the time the M-16 was conceived in someone's mind, until a bullet fired from it ripped through its first body, was a continuous process, with no individual more guilty or innocent than any other.

It is up to the engineer to not only examine the immediate consequences of his actions, but to also consider the long range results. The engineer must examine a balance in his mind. On one side are loyalty to company, country, heritage. On the other are loyalty to himself, and his conscience. Of course, if the en-

Mayor of Terre Haute come to the campus and talk.

Jane Duckworth asked if we would like to sponsor some type of motorcycle show to go along with the showing of the movie, "Hell's Angels" on November 20. John Metz was put in charge.

Roger and Wendy will be appearing in the Coffee House. Dan Kato asked that any good local entertainment be referred to him.

It was decided that the Homecoming Dance will be held in the Union starting at 9:00 o'clock, October 30. Tickets will be \$3.00, including refreshments.

Everyone was asked to think on the idea of having a Casino night. A meeting was called for Thursday, October 7, 1971.

Respectfully submitted,  
Rick Engelman

gineer believes in "making bombs to kill gooks," he has no problem. But the problem arises when we find an engineer who believes that the enemy is composed of human beings who also have a right to live. What then? Should he obey his conscience, and refuse to work on war materials, and become a murderer in his mind. If he follows the former course, he will probably be either fired or demoted. And, of course, he will also be branded a traitor. If he has a family, the problem becomes magnified.

But there is really no choice for the engineer to make. The moment he considers it immoral to kill innocent women and children, he must refuse to make bombs and planes and guns, or he will be as guilty as Richard Nixon or Lt. Calley. But it is not just his responsibility to cease making weapons. He must express his feelings. It is never enough only to recognize a problem. One must strive for a solution. The engineer who follows his convictions, and stops working for war, is only half the way home. He must then start working for peace.

The engineer, more than anyone else, is responsible for the state of our society. He should now start exerting influence over the power he has created. Up to now, he has simply followed blindly. But now, he must come out of the background, out of the darkness, and into the bright foreground, acting according to his own moral code. That is the engineer's true responsibility, whether in war or peace. But when lives are involved, it is more than a responsibility, it is his moral obligation.

# Letter To The Editors

Dear Editor(s):

I hope that this letter is never printed. This would mean that you've started up the scandal sheet again. That's one thing that this school doesn't need.

Last year the articles were studied with fantastic embellishments, rude personal slurs, misleading information, and just plain garden variety trash. Dirty connotations and profanity abounded.

Copies of this "paper" were unfortunately not confined to this Campus. I personally found a copy on my way to the Chapel at St. Mary's!

Is this what Rose offers to its students and faculty, visitors, recruiters and to the people of Terre Haute?

Sincerely,  
P.S.: Please withhold my name.  
Editor Note: This letter was delivered to our office two weeks late.

Dear Editors:

Is this a NEWSpaper or merely a soapbox for the staff?

Does this "paper" inform students about things that would interest the majority of the readers?

Sincerely,  
P.S. Please withhold my name.  
Thank You.

Dear Editors:

What's with this peacenik crud? Just what are you trying to foist off on the majority of the students around here?

One additional question — Are you trying to mold attitudes in this school against our will? Please withhold my name.

Dear Editors:

I'd like to see some new innovations in the way the paper is organized. Rumor has it that you two have creative minds. Let's see the results of letting your imaginations go. I think that the student body can stand it!

For example, how is this paper organized? Do you have a firm organization like the Terre Haute Star where Dear Abby readers turn to page 5, comic freaks turn to page 3, etc.?

If so, break with tradition. Make the students hunt out their favorite stories. That way the ads get better exposure and so do the stories.

As I am a faculty member, just sign me "Helpful."

Dear Editors:

Again you appeal for copy. What if every Humanities Prof. wrote a 750 word article on something that would interest the student body?

They ask us to write compositions in class. Give them the opportunity to show us what writing is all about.

For fear of my grades, please sign me "A Student."

Editor's Reply: It might interest you to know that many Humanities professors have at one time or another promised us copy. Up until this very day, however, the majority of these promises have been hollow. While your idea is a good one, it borders on wishful thinking.

## NEED REPORTERS

Help us turn *The Thorn* into a Campus NEWSpaper. We need reporters to submit copy on a full or part-time basis, to cover fast-breaking stories, and to handle irate readers. Contact *The Thorn*, Box 294.

## TIPS

So you're a faculty member and can't find the time to write an article. If you'd take the time to contact us with your hot tips, then we'd do all the leg work. It's your paper, too. Box 294.

## TOMMY KNOCKERS

By Bill Strahle

**Movie Dept.:** If you really want to blow your mind, then go see *Johnny Got His Gun*. It's a horrifying provocative movie, and you'll spend a couple of days trying to forget it before you realize that you can't! Right, Gina?

**Item:** Be sure and read the headline story. It was too good to hold in my column.

**I Told-You-So Dept.:** Looks like Freddie of Freddy's Foibles fame has taken former President What's-his-name's advice and high-tailed it out of the kitchen before the stove got too hot!

**Future Rip-Offs Dept.:** To all professors holding tenure and nowhere near retirement, I forward this little goodie; Tenure is no longer a license for poor teaching. It doesn't mean as much as it did last year. As the Arabs say, "A word to the wise . . ."

**Item:** The Rose-Hulman Racing Association had a very successful beer bust last Friday. They had to turn 'em away at the door! Now is someone would only buy the dragster . . .

**Opinions:** Too many St. Mary's women think that Rose men are either "bumps-on-pickles" or slightly queer. Then again, too many Rose men think that the St. Mary's women are stuck up or slightly frigid. These rather harsh opinion extremes should not be allowed to last, since both views are largely in error. Why doesn't the S.G.A. sponsor a Rosebud-Woodie Ball?

**Money Speaks Dept.:** Sure we're getting a new Library. But why? Well, I've been told that Rose is going to get a grant approved very shortly to specifically accomplish this end. Yet if one of the good old Alums donates a million

dollars for a new Gym, I've been assured that the priorities will be switched again—grant or no grant, ECPD approval or not! This approach to education might be termed the Howard Hughes Yo-Yo Policy.

**Item:** Seen the new upstairs lockers? Plenty of room for clothes, but not much room for books. Especially if you double up with someone. A Rose grad probably designed them . . .

**Honked-Off Dept.:** The recent lock-out of the newspaper staff clearly demonstrates one typical response to what is seen in print. Why don't the editors have a key to their own office anyway??

**To Curious:** Yes, the rumor you've heard about the dance is true. That's all that I'm allowed to say in print.

**That's A Good Question:** If and when the new Library facilities are constructed, will the ol' library space be given to the Bio-Engineering Department? Or will this dynamic department continue to be relegated to the lower regions? Ah, those catacombs . . .

**No Use Dept.:** Last Quarter, many of us signed a petition asking the Administration to reconsider terminating O. P. Lee. Evidently, from the lack of action on the part of the Administration, the students have NO voice in what actions are taken.

But what happens if the Alumni Association speaks? Now that voice definitely changes things around here!

Why? M O N E Y ! ! !  
Kind of makes one wonder what good those Monday morning sessions with President Logan really are, aside from the obvious value in recruiting new students.

## SECOND CONTRIBUTION

by Stan Baker

Life at Rose is one of discipline and hard work. Everyone who stays here wakes up to that fact sooner or later. The name of the game is "get as much as you can for as little effort as possible." But this attitude isn't one that characterizes most of us when we get here. Work habits, ethics, social behavior, and an infinite number of other activities and attitudes which our mothers (Bless them) have helped us define as good—these all seem to warp under stress like so much cheap plastic. Perhaps we all owe Rose a debt of gratitude for destroying these superficial values for us; but what will the Institute contribute in building another set of standards, the kind acceptable to the "Off-Campus" world?

One can find a number of answers in the Rose bulletin, but these satisfy only a limited number of questions—all loaded with ambiguity and based on misunderstanding.

Perhaps the problems Rose has are organizational (typical of any large industrial complex); it might be that the source of these maladies is the strong tradition at Rose holding back progress. Maybe they are caused by the nature of the fields of endeavor being taught here. The rigor required for anyone to succeed in science or engineering is unquestioned. These disciplines require a very special type of individual.

(Continued on Page Three)

## Pregnant? Need Help?

We will help any woman regardless of race, religion, age or financial status. We do not moralize, but merely help women obtain qualified Doctors for abortions, if this is what they desire. Please do not delay, an early abortion is more simple and less costly, and can be performed on an out patient basis.

## PARTY LINE

by Beldon Beasley

(Warning: Please DO NOT read this article unless you wish to participate in the propagating of cheap, low-brow political humor.)

As I started to dial a friend the other evening, I was surprised to hear two men talking of political issues over my party line. From the conversation I gathered that one man's name is Gleeland Embarrasson while the other's was Dill Right-on. Even though I probably shouldn't have, I continued to listen to the discussion and I will reveal part of it to you as best as I can recall:

Dill: Boy, my feet hurt!

Glee: Listen, I'd be happy to give you a lift uptown any morning in my Caddy. That's too bad about your car breaking down.

Dill: Thanks, Glee. Say, something is really disturbing me. I don't know who to vote for for may-or. I've heard the Democratic can-did-ate is a good man.

Glee: Golly (Sgt. Carter) Dill, don't you know that he is a mere puppet of R. C. Bury (alias "Rack 'em Ralph") and that R. C. wants to take over the city government. (no mention is made of the source of this information) Unless you're a real baked bean-head you'll vote for the Redoublycan candidate whose motto is "Honesty and Truth most of the time."

Dill: I don't know about that,

Glee. I've heard numerous reports that he has committed the very serious crime (relevant to the issues of this campaign) of failing to cut some weeds down on Fifth (White Horse, please) street! I'm full of despair and don't believe there's any meaning to life.

Glee: (encouragingly) Well, there's no reason to be sad due to the fact that there's no meaning to death either; God has put us here and God will take us away.

Dill: I guess you're right. Listen, I'll let you go now and I'll see you in the morning down at the corner. I wouldn't want to embarrass you by making you drive up in front of my shabby house.

Glee: O.K. See you then.  
Click.

(Note: Please don't write a complaining letter to the editor lest you proclaim yourself a hypocrite. I gave you ample warning in the preface.)

## JOKES

Heard a good one? Why not submit it, with your name and box number, to *The Thorn*. Our box number is 294. Please refrain from lifting Playboy Party Jokes or SEED originals.

SECOND CONTRIBUTION

(Continued from Page Two)

at "special" is a word Rose officials have never avoided. Rose officials are handpicked by a staff of professional recruiters well versed in what the institution of technology (in particular, the Rose Institution) needs and wants. The superior results that these men come up with are observable in each freshman class matriculating at Rose. What is it that makes the students at Rose so special? Perhaps a less embarrassing question would be—just why does it the recruiter looks for the "special" student?

"Special," or any other word denoting exclusiveness or distinction also has connotations—good and bad. "Exclusive" was for Robert Frost the most hated word in the English language. But the sciences in their tendency to create structure and classification promote exclusiveness in practice as well as in thought. Grouping is a purely scientific concept and isn't nearly as harmful as the biometric idea applied to a more humanistic scheme. On a "people as a whole" grouping has devastating sociological overtones; this obviously is one of the major problems plaguing society today.

The structuring of people into groups wouldn't be as objectionable if it weren't liable to amargue and sometimes malicious abuse. But the kind of verbal abuse which can be the result of names (not intrinsically evil) and names calling makes the whole concept of being "special" questionable. The whole point of this column is to make those who read more aware of what they think and why, but that is a question only they can answer.

One closing thought: aren't we all proud to be a part of a group of people who choose to subdivide and then mutilate each other. With names "Nurds," "Greeks," "GDI's," "Skinheads," "Longhairs," "Woodies," Et. Al . . . and the thoughts accompanying them.

THE END

COMING SOON  
DOCTOR ZHIVAGO

by James Powell

The story begins on the resonating crescendo of a chorus of nameless voices, echoing the tyranny of a Czarist Russia only to be crushed by the thundering crash of a revolutionary's volley and dissolving into the jingling bells of a sleigh ride over the frozen snows of the Siberian plain, then warming to the dancing Jonquills of spring, plucking the strings of a love song. And even the liberated find no victory as the White Guard the Red murder their own children in the name of a cause that has long been forgotten and an ideal that the frozen blood of brothers has snatched from memory. The lover feels and watches the blossom and snowflake and hears a whirlwind of bittersweet song almost glimmering in a stained night. The sweeping scope reveals the spectacle of wars changing history and a grand old age swept away by a new and violent order. The silent drama of young lovers, away from the chaos, alone and quiet. Amid the bloody violence of the Bolshevik Revolution and the faceless masses that passed under the iron hand of the Red Star, emerges the story of a passionate poet who lived during a time when sensitivity was not desirable in order to stay alive.

Doctor Zhivago is more than merely a tale of a grand upheaval in history and the intimate lives of a few of the individuals involved, for it is a perception of a land and a people and more particular of a bittersweet mood and way of life that has been so unforgettably represented in the music, color and character of Revolutionary Russia.

Maurice Jarre composed a score filled with folk themes, orchestral fireworks and light melody that portays the elegance and squalor of aristocratic Russia. The wailing cry of the fanatic idealist and the delicate song of love that is always ringing with sorrow and all the painful tenseness of a teetering society.

Victorian Moscow fills the screen with all the splendor and wretchedness that the stone facades must have once been and the Russian Land is seen from the imposing Ural Mountains to the lonely Si-

## ENGINEERS LOSE TO PRINCIPIA

For the second week in a row, Rose-Hulman's Fightin' Engineers moved well between the 20 yard stripes, but could not push the ball across the goal line. Although the Engineers amassed over 400 yards offensively, Principia College put the points on the scoreboard and defeated the Engineers 17-14.

Principia scored first when Larry Olsen, who intercepted three passes, kicked a 26 yard field goal to make the score 3-0. On the next series of downs, a Mike Box pass was intercepted and returned 40 yards for a touchdown to give Principia a quick 10-0 lead in the first quarter.

In the meantime, a "red-dog-

ging" Principia defense kept the Engineers guessing and off balance. Rose finally got untracked in the second period on a 43 yard pass play from Box to Rick Manuszak. However, Principia bounced right back and scored on a nine yard pass play after a Box pass was intercepted. The teams left the field after the first half of play with Principia leading 17-7.

The Engineers received the kick-off opening the second half, but Tom Hunt fumbled the ball and Principia recovered on Rose's 25 yard line. However, the defense stiffened and choked the drive on the one yard line. The offense then took over and marched 99 yards to paydirt with Jerry Bertram carrying the pigskin over from the one. Randy Shoaf added his second extra point kick. The Engineers, therefore, closed within three points, 17-14. The next quarter and a half can only be described by one word, "frustration."

With the Principia offense stymied by the Engineers tough defensive team, Rose repeatedly knocked on the door, but could not convert as Principia's Larry Olsen intercepted three passes to save his team from disaster. In the fourth quarter, the Engineers were within 20 yards of a score three times only to be stopped by a weary Principia defense. The statistics speak for themselves! Mike Box hit on 20 of 36 passes for a total of 335 yards. Kevin Murphy and Rick Manuszak made some superb catches to keep the Engineers rolling, and Jerry Bertram ran over many Principia defenders! However, the game ended with Principia on top 17-14.

Rose-Hulman's mark now has fallen to 1-2, instead of 3-0, which it should be according to the statistics. Next week the Engineers travel to Indianapolis to play Indiana Central.

Twins David and Dennis Kuntz of Colonia, N. J., are on the NYU cross country team.

## Rose Harriers 4-0 STRANGE BREW

by Ahmed and Frank

Hey, we're back! As if you didn't notice. Those camels sure do smell. If you clowns don't remember us, let's have a proper intro. "Hi, I'm Ahmed," "Hi, I'm Frank." And since we don't have the time or interest to hear all of your names, let us now commence.

Being stone broke after buying piles of records, we don't wanna hear no gripin' about the coverage. **TIME OUT!** Headline: We've got a certain friend (?) who thinks he knows more about the blues than Eric Burdon. And he certainly does. Therefore, we invited this biased redneck to start pushing his pen — we would be more than glad to leave the blues reviews to him. All you need to do is drop it off in Box 612, buddy. That goes for all you other frustrated literary geniuses, too.

Now, getting back to the albums... *The J. Gills Band* (Atlantic SD 8275) has been on the racks awhile without receiving a great deal of airplay. This is unfortunate as the album has much to offer. All the cuts are short, ranging from two to five minutes, and this allows the whole group to put all they have into each second of each song. It's a nice change from the long cuts that are so prevalent on today's records where everybody just takes turns showing off their talents. Several songs that are really grabbers are "Serves You Right To Suffer," "On Borrowed Time," and "Sno-Cone." There is no way you can lose on this album.

**HOLD ON IT'S COMING—** Yes, if you wait long enough, Country Joe Macdonald's new album *Hold On It's Coming* will come to Terre Haute. Oops, Ahmed made a booboo and forgot to put in the number. It's Vanguard VSD 79314. It's not a bad album at all, though it does have a few fishy songs thrown in here and there. Several songs to pay attention to are "Only Love Is Worth This Pain" and "Balancing On The Edge of Time." And, of course, the title song picks you up and hold you, twice no less. Country Joe followers will not be disappointed.

Ahmed saw a group this summer for the first time that calls itself Glass Harp and their first album, *Glass Harp* (Decca DL 75261), would make a fine addition to any record collection—and for you nards the sound is very mellow. In other words it's easy to study to. Not enough can be said about the album, so "enuff said." Just trot on out and get it and then hold your head high because you have an album by one of the world's few nine-fingered lead guitarists.

All you guys had better get it together and buy the new Steve Miller Band album, *Rock Love* (Capitol SW 748), alias number six. Steve's down to two sidemen now, a new record for him. It was getting too crowded on stage anyway. We thought we'd miss Tim Davis, but Jack King lays it down okay. And Ross Valory adds a good bottom. Two of the cuts are live, another first for Steve and don't forget. "The Gangster Is Back." Miller plays his heart out on "Blues Without Blame" and the whole band shows off on "Love Shock." So go out and toss your money on the counter, boys, and save those plastic bags.

Today's Health Hint from Dr. Ahmed, registered veterinarian: Instructions—

1) Play *Bloodrock 3* at normal speed. 2) Play *Bloodrock 3* at 45 rpm. 3) If you detect a difference, proceed immediately to the nearest clinic.

Assorted Trash Dept.:

1. The Beach Boys were in Indy last Friday night.  
2. Donny Osmond had an appendectomy.  
3. Imagine what John might do to Paul's ram.

Well, that winds it up for week No. 1. We wish to thank all of you for being with us and a special thanks goes to *The Thorn* for allowing us to do it to you. Ahmed has fallen asleep, but Frank wants everyone to **KEEP ON TRUCKING.**

A debenture bond is an evidence of indebtedness of a corporation, not secured by the mortgage right of foreclosure.
